

# EDEN FOODS®

*Olea europaea*

Pure & Purifying™

The finest unrefined vegetable oil.

Pure, unrefined vegetable oils satisfy the fat needs of a healthy diet with their pleasure, nutrients, and health benefits intact. They contain essential fatty acid antioxidants that protect them, and us. Unrefined and organic are indicators of purity for vegetable oils that evidence avoidance of typical adulteration processes. EDEN® unrefined and organic vegetable oils are also protected from photochemistry diminishing the flavor and nutrients by the use of Amber Glass.

A principled natural food company. 260+ foods and 1,100+ free recipes at
